September 22, 2013

Agenda

• How has mobility changed learning?
• How can we re-imagine learning space?
• The iLab Research Project
  • What we asked
  • What we found
  • What it means

How do you...

- Support mobility?
- Enable personalized learning?
- Measure the impact of space on learning?

Reimagining Learning Space
Questions:

a. How does agile learning space affect teaching and learning?
b. Can a physical learning space be more interactive?
c. Does enabling manipulation of the physical environment affect learning?

The Research

The Methods

- Qualitative
- Quantitative
- Ethnography
Behaviors

Divergent Thinking

Convergent Thinking
Conclusions

- Interaction
- Manipulation
- Body-mind link
- Affordance

Thinking about space
