

2026 Northeast Region A4LE Academy Scholarship

Scholarship to the Advanced Academy: Cohort 13

The **Northeast Region** of the Association for Learning Environments (A4LE), is offering a scholarship for one member of the Northeast Region to participate in **The Advanced Academy: Cohort 13**. The scholarship will be given to a **Public Sector Member** in good standing and who is committed to the profession and wants to become actively involved in the Association at the Chapter, Regional, and International levels but need financial assistance to participate.

Please submit your application by ***February 28, 2026***

The Advanced Academy for Designing Learning Spaces-Cohort 13

The scholarship will financially assist a **Public Sector Member** with registration into the full program.

Applicants must be a member of the A4LE.

The Region will award **one** scholarship in the amount of **\$5,000**. The scholarship award winner will be expected to complete each module of the program with at least 80% to earn the certificate, report progress in the program to the **Northeast Region** and make a presentation about the program at a Regional event. If the scholarship recipient does not achieve at least an 80% in each module, the region will no longer provide the funding to continue in The Academy.

- High school degree or equivalent (e.g., GED)
- Some college but no degree
- Associate degree
- Bachelor degree
- Graduate degree

2026 Northeast Region A4LE Academy Scholarship

Application to The Advanced Academy

This intense, high quality program consists of SIX, 6-week online courses created by industry experts. The comprehensive program of study is grounded in the key knowledge and skills central to the sound planning, building and maintaining of learner-centered environments.

The entire program of study centers on the student, beginning with a course about educational theory and pedagogy. Each of the remaining courses addresses one component of a successful planning process resulting in learner-centered schools. Each course is also tied to the Core Competencies of the Accredited Learning Environments Planner (ALEP).

Students can access the online program 24/7 and nothing is delivered in real-time. Weekly assignments and discussion boards are required. Past participants spend approximately 8-12 hours a week on the course. There are group projects with other students in the program, intended to simulate the real-life process of a capital project.

Each module culminates in a signature project that demonstrates the knowledge and skills developed during the 6 weeks. Graduates of the program who complete all 6 modules with at least an 80% are eligible for the ALEP designation.

* 8. Please explain why you want to complete the Advanced Academy for Designing Learning Spaces. (200 word limit)

* 9. Please provide contact information of a professional reference who we may contact.
