Association for Learning Environments (A4LE) is a non-profit 501c(3) with over 150 local members and over 5,000 members worldwide ranging from school district decision makers and teachers to design and construction professionals. Our goal is to learn from and provide innovative 21st Century learning environments that will inspire critical thinking and problem solving skills, creativity, collaboration and effective communication for all types of learners.

Our A4LE Oregon / SW Washington Chapter invites you to assume a leading role in the K-12 school construction industry as a sponsoring partner of our chapter and events. Your funding helps us support our local chapter’s scholarship program, local outreach programs to schools, and provides forums to educate and share ideas with industry professionals, teachers and district personnel.

We offer a variety of annual and event sponsorship opportunities suited to our industry partner’s variety of budgets. These offerings are designed to deliver your brand message to the most influential chapter decision makers in the school facility industry. We appreciate the generous support of our sponsors whose commitment and generosity help to ensure that A4LE educational programs and events are of the highest caliber.
