We are pleased to welcome the A4LE Saskatchewan Chapter back to Regina in 2018. We are excited to show off a variety of our new schools including: a joint-use school, two traditional build elementary schools and a new shared use high school and community centre. All have been opened in the past year. We are planning a number of exciting events centred around these facilities and a number of interesting speakers exploring building for a new generation of learners, teachers and facilities operations. There will be a variety of engaging concurrent sessions, with topics dealing with planning, design, construction and maintenance and operations aspects of the school facilities business provided by experts in their respective fields. And plan to spend time at the all day tradeshow on Thursday, to learn about new products, materials and suppliers. You can count on warm prairie hospitality and many opportunities to connect with old friends and meet new ones – we look forward to seeing you in Regina in January 2018.
