

Trauma-Informed Design Workbook

VERSION 3.1

The TID Checklist outlines best practices to help shape learning environments that support students and teachers who have experienced trauma. Pre-pandemic over two thirds of children reported at least one traumatic event by age 16. Post pandemic trauma statistics soared.

To address the pervasive impact of trauma in our schools we present this checklist as a tool to assist designers, educators, and administrators gain knowledge and actionable ideas.

Strategies for dealing with trauma continue to be emergent. This TID Checklist is a start. An open-source compilation of ideas, patterns, and provocations, it is meant to be shared, modified, and revised for specific learning communities. Hopefully it will promote creative thinking and dialogue to embed trauma-informed concepts into new and existing buildings and classrooms. Now more than ever, trauma-informed design (TID) can help heal and empower our students and our schools.

GUIDING PRINCIPLES

Guiding Principles are big-picture ideas or goals that frame projects and help prioritize decision making. Different projects invariably have different Guiding Principles. The following list is a compilation of Guiding Principles we often encounter in our projects. Inclusion of Trauma Informed Design ideas within the overarching concepts that shape a project ensures that guiding principles are more fully integrated into school designs.

Version 3.1

Learning Focused

What does the brain research say?

- + Body regulatory network shuts down higher brain functions if stressed
 - Sequence of engagement
 - > Regulatory system balanced (not stressed)
 - > Connect emotionally (listened to, respected)
 - Reasoning engaged (higher brain functions language, history, morals)

SURVIVAL BASICS

Survival Basics are the fundamental needs that must be addressed so children are ready to learn.

Shelter

Provide the basics

- + Warm, safe, & dry
 - Create comfortable spaces

Create layers of Shelter

- + A variety of shelter types
 - A den could provide a protected space
 - Floor cushions on a rug could provide a comforting oasis
 - Sensory toys
 - Thera-bands
 - Fidget toys

ST. THOMAS SCHOOL / BASSETTI ARCHITECTS. John Edwards

ABOVE: BUD HAWK ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

RIGHT: KLAHOWYA SECONDARY SCHOOL / BASSETTI ARCHITECTS. Moris Moreno

Safety

Allow for hypervigilance

- + Traumatized children Monitor for perceived threats
- + Have a need for protection

Understand levels of trust

- + Realize that for some, trusting others can feel dangerous
- Monitoring for one's safety can be physically/ emotionally demanding and exhausting

Food Security

Present opportunities for food availability

- + Food and drink in learning areas
- + Morning, noon, after school availability

ABOVE: ROMP / BASSETTI ARCHITECTS. Kip Beelman LEFT: UNITED WAY.

ABOVE: SHOREWOOD HIGH SCHOOL
/ BASSETTI ARCHITECTS. Jeff
Amram
BELOW: ROMP / BASSETTI
ARCHITECTS. Kip Beelman
RIGHT: HAND WASHING. Fran
Jacquier

Homelessness

Address hygiene

+ Shower facilities

Provide for Hunger

- + A kitchenette for warm meals
- + A pantry for provisions

Care for clothing / possessions

- + Laundry facilities for student use
- + Lockers or closets to store belongings

Sleep

+ A safe space to nap

Notes

OVERARCHING DESIGN CHARACTERISTICS

Overarching Design Characteristics provide patterns that support Trauma Informed Design. This is an evolving list that has been compiled from research, observations, and input from educators experienced in dealing with trauma. The list is intended to be used to spur creative thinking about designing for kids dealing with trauma; to remind us of critical issues impacting traumatic stress; and to help us critique our designs in the hope of developing more comprehensive solutions.

Personalization

Human scaled

Less institutional - more personal

Personal space

- + Don't overcrowd with furniture
- + Navigate without touching others

TOP: ARBOR HEIGHTS ELEMENTARY SCHOOL /
BASSETTI ARCHITECTS, Jeff Amram
RIGHT: MOUNTLAKE TERRACE ELEMENTARY SCHOOL /
BASSETTI ARCHITECTS. Jeff Amram

LEFT: ARBOR HEIGHTS ELEMENTARY SCHOOL / BASSETTI ARCHITECTS, Jeff Amram

Thoughtful Transparency

Visibility from space to space

See who's coming and going

Balance transparency with areas of refuge

+ Avoid being in a fishbowl

ABOVE: ARBOR HEIGHTS
ELEMENTARY SCHOOL / BASSETTI
ARCHITECTS. Jeff Amram

RIGHT:STEWART MIDDLE SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Flexibility

Multiple ways of using space

Equitable use by all

Adjusts for specific needs of kids

Choice

+ Seating/table types, locations, noise levels, light levels, group or solo

LINCOLN HIGH SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

Safe and Secure

Trustworthy, transparent

Empowerment, voice

Cultural, gender support

Biophilic design

RIGHT: SPRUCE ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Moris Moreno

Optimal Light

Excellent daylight in learning areas

+ Areas of lower light levels

Artificial light

- + High quality, warm values, task lighting
- + Controllable light
- Dimmers, sensors
- + Sensory triggers to be avoided
- Harsh, flickering, buzzing lights
- Visual complexity distracting patterns on walls and floors

NATRONA COUNTY HIGH SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Acoustics

Balanced Acoustics

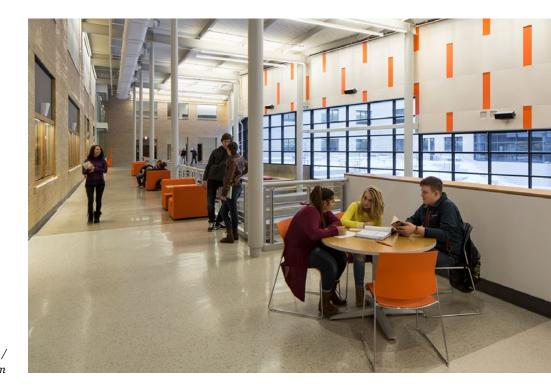

- + Minimize unnecessary and overwhelming ambient noise
- + Sudden or steady noise can be stressful

Sound Absorption

+ Tiled and/or portable carpets are a great alternative in that they can be replaced and cleaned as needed to eliminate pathogens and dust.

Variable sound options

+ Music, calming sounds – water, birds

NATRONA COUNTY HIGH SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Display

Visual interest and warmth

- + Artwork- landscapes, organic color palettes
- + Biophilic elements

Positive messages in learning areas, gathering areas, circulation areas

- + Avoid punitive sounding messages
- + Consider "can do" vs "can't do"

Reduce clutter

- + Avoid too much visual stimulus
- Avoid overhead, hanging, dangling display – can spark hyper-vigilance

ABOVE: TRUMAN ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

 ${\it LEFT: ROOSEVELT HIGH SCHOOL / BASSETTI ARCHITECTS. Jeff Amram}$

Materials and Finishes

Soft finishes, durable, easy to clean

Biophilic finishes

+ Avoid institutional, slick feel

Think about wall colors

- + Avoid bright white, gray, beige – stark or institutional
- + Avoid sensory triggers- neon intensity, deep saturated colors
- Red, yellow, orange
- Pops of color are okay
- + Consider light shades of blues, greens, purples, foster spaciousness
- + Send positive messages but avoid distracting patterns on walls and floors

Culturally respectful – finishes, colors, patterns

Low VOC finishes to prevent off-gassing of design materials

+ Consider a fragrance-free environment

RIGHT: THE EVERGREEN SCHOOL /
ASSETTI ARCHITECTS / Jeff Amram
BELOW: ARBOR HEIGHTS
ELEMENTARY SCHOOL / BASSETTI
ARCHITECTS. Jeff Amram

Furniture

Uncluttered

- + Don't overcrowd with furniture or visual stimulation
- + Ensure adequate space for navigation

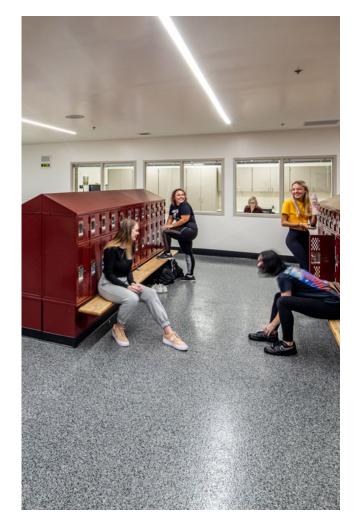

Separate chair and table options

- + Flexibility
- + Wheels on tables, chairs- quiet and movable
- + Choice seating and table types
- + Location, noise level, group or solo
- + Socialization options
- Seating to face away from or into walls
- + Soft finishes
- + Peace corner
- Focus, quiet, calm

Materiality

+ Durable, easy to clean

+ Traumatized kids need security

+ All-gender vs binary

Toilet Rooms

Toileting approach

supervision to mitigate

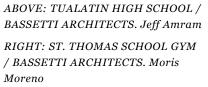

+ Provide passive

bullying

+ Consider lockable stalls for privacy vs. concerns for suicide, drugs, sex

Needs of homeless kids

Shower, locker, laundry, place to sleep/nap

Biophilia

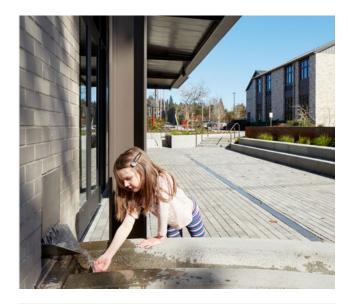

Connection to nature

+ Outdoor connections can enhance emotional, problem-solving, critical thinking, and constructive abilities

Outdoor learning

- + Outdoor learning spaces create additional space to learn
 - Create sensory patterns in natural environment
 - Use organic, naturalistic design
 - Use place-based, vernacular design

TOP RIGHT: ST THOMAS SCHOOL / BASSETTI ARCHITECTS. Moris Moreno

BOTTOM RIGHT: FIVE OAKS MIDDLE SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

LEFT: KLAHOWYA SECONDARY SCHOOL / BASSETTI ARCHITECTS. Moris Moreno

Areas of Refuge

Need to recenter and de-stress

- Provide varied approved, passively or actively supervised spaces for kids experiencing stress to find refuge
- Areas of refuge within or adjacent to large gathering areas
- Quiet outdoor space within sight lines of outdoor learning spaces or administrators
- Edges, nooks or balconies for retreat or passive observation
- Flexible soft seating, study niches or counters that face a wall and do not call attention to the need for retreat

Need to be sheltered from a large group

- + Consider supervised options in place of attendance at whole school assemblies
- + Consider multiples spaces and options when trusted adults are unavailable and refuge is needed

RIGHT: HIGHLINE HIGH SCHOOL / BASSETTI ARCHITECTS. Benjamin Benschneider

BELOW: JACKSON PARK (BUD HAWK) ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Notes

SPACES WITHIN A SCHOOL

This section explores spaces and groups of spaces within an educational environment where aspects of the overarching design characteristics might be applied.

 $LYNNWOOD\ ELEMENTARY\ SCHOOL\ /\ BASSETTI$ $ARCHITECTS.\ Jeff\ Amram$

Learning Spaces

CLUSTERS OF LEARNING

Enhance personalization

- + Human scale
- + Home base known well

Balance social spaces and private spaces

- + See the door(s),window(s)
- + See who is coming and going
- + More than only seeing a whiteboard

ABOVE: RAISBECK AVIATION HIGH SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

RIGHT: TRUMAN ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

TRUMAN ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

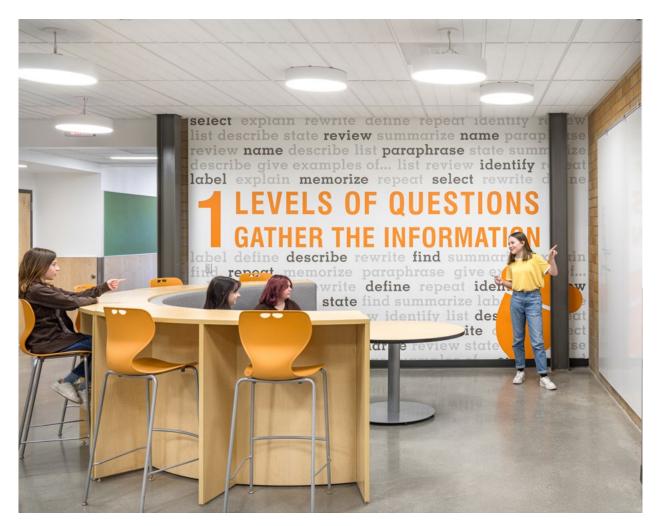

Learning Spaces

LAYERS OF SPACE

Address the Needs of the student - isolation vs inclusion

- + Home base personalized, retreat, study, focus
- + Small group space (2-6 students)
 - One-on-one classrooms
 - Collaborate, group projects
- + Students known well by the teacher
 - Medium group space (6-15 students)
- + Adaptable to small group collaboration
 - Group instruction, project-based learning
 - Safe edges, peace corners, nooks
 - Large group spaces (+15 students)
 - Prospect and refuge
 - Safe edges, nooks
 - Outward bound to nature
- + Connection to outdoors, electives, CTE, PE, music, art
- + Consider student well-being and foster relationships

ABOVE: FIVE OAKS MIDDLE SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

RIGHT: ROSE HILL MIDDLE SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Learning Spaces

OUTDOOR LEARNING SPACES

KLAHOWYA SECONDARY SCHOOL / BASSETTI ARCHITECTS. Moris Moreno

Enhance connections to nature

- + Calm, center, de-stress
- + Breathe oxygenate the brain – enhance learning and focus
- + Encourage problem solving skills, critical thinking, constructive abilities
- + Enhance emotional clarity
- + Promote healing, recovery

Support refuge

- Varied approved, passively or actively supervised spaces for students experiencing stress
 - Edges, benches, slopes
 - Grove and garden

Support learning activities

+ STEAM, reading, poetry, drama, debate, movement

Support exploratory learning

- + On-site
- Natural areas, local ecosystems, water story, garden, orchard, arboretum
- + Off-site
 - Neighborhood, town, city, parks, ecosystems

Encourage play

- + Active play
- + Passive play
- + Small/Medium/Large

Support fitness

- + Organized and personal
- + Track, field, court, course
- + Fitness circuit, climbing, obstacles

Support social gathering

- + Small/Medium/Large/ Extra Large
- Areas that support small trusted group – friend(s), mentor

RIGHT: BARN BEACH RESRVE /
BASSETTI ARCHITECTS. Jeff Beck
BELOW: THE EVERGREEN SCHOOL /
BASSETTI ARCHITECTS. Jeff Amram

 $RAISBECK\ AVIATION\ HIGH\ SCHOOL\ /\ BASSETTI$ $ARCHITECTS.\ Ben\ Benschneider$

Circulation Spaces

CONNECTED SPACE

Design the entry sequence

- + What is the exterior approach
- + Landscape/biophilia, security, welcome visibility, engagement, shelter, protected place, scale
- + Vestibule
 - Shelter, warmth, visibility
- + Lobby
 - Welcome (students, parent/caregivers, community partners)
 - > Information, support
 - Avoid punitive sounding messages
 - Support 'Can do' vs 'can't do'
 - Safety and security, visibility

Design with intention

- + Clarity, visibility, thoughtful transparency
- + Avoid sharp corners, surprises
- + Minimal barriers
- + No dead ends
- + Consistency, predictability
- + Clear consistent signage
- Gracious circulation space, avoid touching, and interfering with personal space

RIGHT: LINCOLN HIGH SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

BELOW: TRUMAN ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

Professional Work Areas

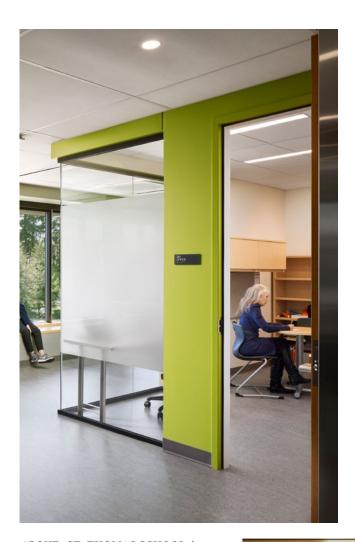

TEACHER / STAFF TRAINING

Create space for ongoing professional development regarding trauma informed teaching

- + Restorative practices
- + Relax, re-focus, biophilic connections

FEDERAL WAY PUBLIC SCHOOLS SUPPORT SERVICES CENTER AND CENTRAL KITCHEN/ BASSETTI ARCHITECTS. Jeff Amram

ABOVE: ST. THOMAS SCHOOL /
BASSETTI ARCHITECTS. Moris
Moreno
RIGHT: TUALATIN HIGH SCHOOL /
BASSETTI ARCHITECTS. Jeff Amram

Offer passive supervision

+ Adults nearby who have eyes on students, safety, comfort, known adults

Design planning, collaboration, counseling spaces

- + Adults model collaboration
- + Coordinate with parents, caregivers, counselors, social workers, etc.

Greet guests and caregivers

+ Graciously greet those who serve and care about students

 $SHOREWOOD\ HIGH\ SCHOOL\ /\ BASSETTI\ ARCHITECTS.$ $Jeff\ Amram$

Community Spaces

COMMUNITY ROOM, CLOSETS, KITCHENS

Provide space for restorative practices to support families and students

- + Family rooms
 - Welcoming, highly visible
- A place to meet, work, consult
- + Multi-purpose rooms
- Conferencing large and small
- Kitchen(s)
- Office(s)
- + Make it the nexus of community services, connections, communication
 - Healthcare
- Counseling
- Social services
- Homelessness services
- Food pantry
- Clothes closet
- + Create places of refuge
- Caring adults

ABOVE: SHOREWOOD HIGH SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

RIGHT: TRUMAN ELEMENTARY SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider

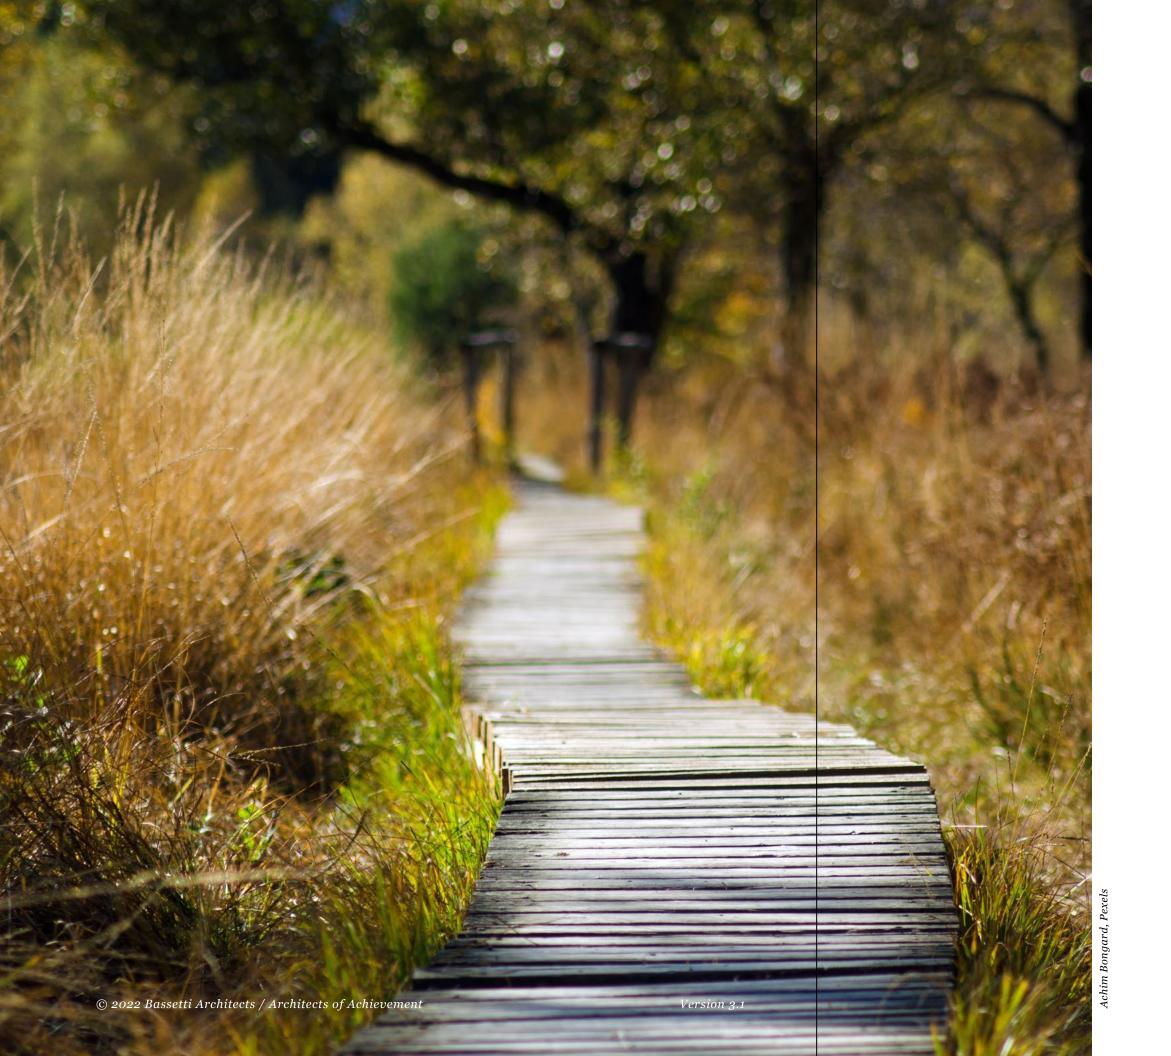

LEFT: RAISBECK AVIATION HIGH SCHOOL / BASSETTI ARCHITECTS. Ben Benschneider ABOVE: TIGARD HIGH SCHOOL / BASSETTI ARCHITECTS. Jeff Amram

Notes

-		

QUESTIONS TO ASK AS YOU EXPLORE TRAUMA INFORMED DESIGN

How are you currently using your learning environments to buffer toxic stress?

What are barriers you may have to creating trauma informed spaces?

Where can you get the most bang for your buck?

CONCLUSION

Educators have faced the impacts of trauma on children often since the inception of organized schooling. Students who experience traumatic events face challenges regulating their emotions and have difficulty with attention, learning, and memory.

Agrowing understanding of Adverse Childhood Experiences (ACEs) has helped educators deal more effectively with the impacts of family violence, abuse, divorce, poverty, bullying, racism, and a host of other stressors. The COVID-19 pandemic added yet another layer of toxic stress. Its impacts on marginalized populations, such as people living in poverty, refugees, BIPOC and LGBTQ+ communities, has been particularly severe.

We hope this TID Checklist assists educators, administrators, architects, designers, and managers develop actionable ideas to help shape learning environments that positively respond to the challenges of trauma affected youth.

The importance of discussing, debating, and applying the ideas in this open-source list is critical, particularly as we emerge from a global pandemic. We hope you find it useful and welcome your feedback and ideas by writing us at media@bassettiarch.com.
