

# Providence Academy

Our vision for a school of the future  
and the epitome of education in Canada

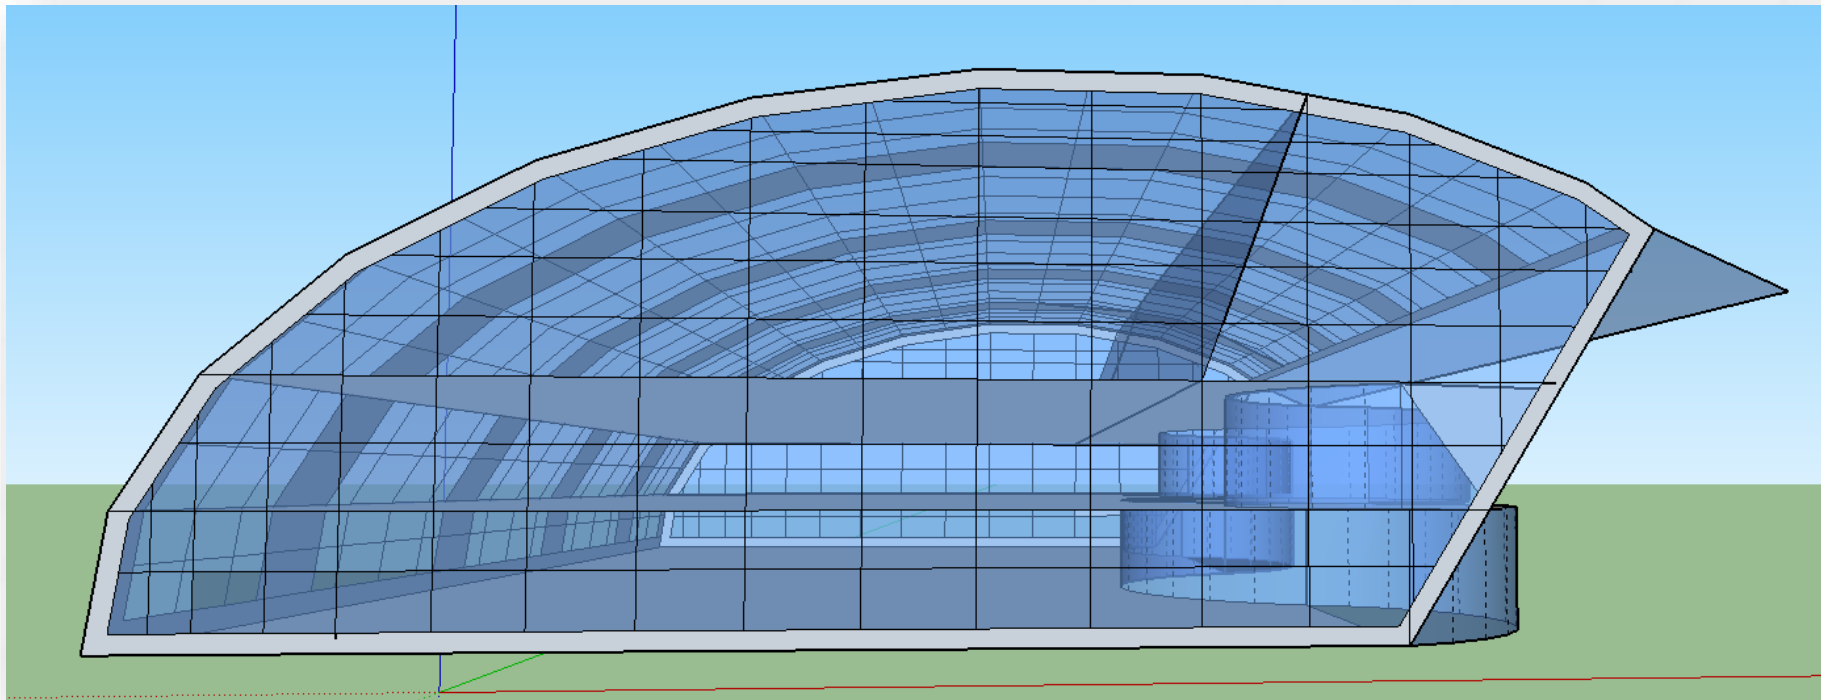

# Vision Statement

To drive Fort Providence to a new benchmark on the education front by designing a school inspired by innovation and the ideals of modern architecture, strong cultural representation, 21<sup>st</sup> century technology, and advanced environmentally-friendly systems and cues. This, in turn, will improve the learning experience for students and, hopefully, get students more excited to learn in the modern, resource-filled environment of our creation, Providence Academy.
