Overview:

The A4LE Southern Region Foundation is a non-profit organization established to foster research and scholarly study regarding the impact of school facilities on student achievement. The Foundation acts as a proactive catalyst for promoting the development of quality learning environments in the A4LE Southern Region by funding scholarships and grants through the Otto D. Grove Jr. Fund.

Using a scholarship process, the Foundation intends to fund efforts in the Southern Region that address the following:

1. Awareness of A4LE and the importance of quality educational facility planning.
2. Advance the understanding of benefits gained from quality educational facilities.
3. Extend the body of knowledge related to educational facility planning.

Scholarship

This scholarship provides financial assistance for one or more individuals residing in the Southern Region states to attend the A4LE Annual Conference October 4-6, 2019 in Anaheim, CA. This important event brings together school planners, educators, and design and construction professionals from around the world to collaborate on ideas and issues relating to the planning and design of contemporary schools.

Preference will be given to those who have not attended a A4LE Annual Conference in the past 3 years due to financial burden. The maximum amount of this scholarship is \$1,200 and may be applied to registration, travel and/or hotel costs as needed. Incidental expenses such as meals not covered by the conference fee and ground transportation are not included in this scholarship.

Eligibility Requirements

Eligibility to receive a scholarship is open to any A4LE member in good standing in the Southern Region interested in furthering their knowledge and expertise in educational facility planning and the advancement of the A4LE mission. Individuals living and working within the southern region states who are not currently members of A4LE are also eligible provided a A4LE member in good standing in the Southern Region nominates and agrees to sponsor this potential new member.

Characteristics Sought in Candidates

The Foundation seeks applicants who are active members of the educational facilities planning community who demonstrate a desire to further their education of the fundamentals outlined in the Creating Connections: *The A4LE Guide for Educational Facility Planning*.

Ideal candidates should demonstrate a balance of the following characteristics:

3. Actively engaged in A4LE and the advancement of the mission (or desire to do so)
4. Desire to improve the way educational facilities are planned, designed, built, and utilized.
