- owner representatives
- architects, interior designers
- engineers
- contractors
- industry partners

Join us for social events, educational opportunities, and tours of exciting facilities.

Emerging Professionals’ Next Event: Facility Tour in October 2017

The Association for Learning Environments (A4LE) is a professional organization established in 1921 and is the advocate for excellence in student learning environments. We serve those who use, plan, design, construct, maintain, equip and operate educational facilities.

We believe:

- Facilities impact the learning, development and behavior of the facility user
- The planning process is essential for quality facilities
- Sharing and networking improves the planning process
- There is a standard by which to measure
