## *The President's Pen*

*It has been a great privilege this past year serving the members of the CEFPI Southern Region and the Gulf Coast Chapter. I want to thank my Gulf Coast Board member colleagues for supporting me and helping me through the 2013-2014 year.*

*As always, all good things come to an end. Your new President for 2014-2015 year will be Mr. Gary Hutton. If you get a chance, please say hello and let him know that the Gulf Coast Chapter family is here to help him in any way.*

*Before I go, I would like to thank everyone that came out and participated in the 2014 CEFPI Annual Conference and Expo in Portland Oregon, the Gulf Coast Chapter Golf Tournament at Northgate Country Club and the Gulf Coast Chapter Sporting Clay Event at the American Shooting Centers.*

*I wish everyone Happy Holidays and a very Happy New Year!*

**Allan Patrick**

President, Gulf Coast Board of Directors

## 2014 Gulf Coast Chapter's 14<sup>th</sup> Annual Golf Tournament

The Gulf Coast Chapter's 14th Annual Golf Tournament was held at Northgate Country Club on November 10, 2014. The day started off cool, but the sky cleared over perfect course conditions. The day warmed up quickly for the 15 teams (57 players) that participated in another successful fund raising golf tournament. The tournament netted over \$3,100 for the benefit of the Southern Region Education Foundation and Gulf Coast Chapter.

This year's event was coordinated by David Kaczynski from Lone Star College System and Todd Lien of VLK Architects. A very special thank you goes out to Hunter McClain of Alpha Testing for volunteering to operate the beverage cart. Extra special thanks to all of the event sponsors, many who continue year after year to offer significant financial and other support for our events, Chapter and Region.

Tournament sponsors for 2014 included the following firms:

## CEFPI Meeting at SJC North Campus

In September, we had the opportunity to tour San Jacinto College North Campus, Allied Health and Science facility. With over 35 attendees, the lunch and tour of the sustainable facility proved to be an interesting event for our chapter. Creating a learner-centric environment that was transparent with abundant day lighting was the central goal of the College.

Designed by IBI Group, the LEED silver educational facility features programs including: emergency medical technology, health information, medical assisting, pharmacy technology and nursing. The building is equipped with state-of-the-art simulation labs to depict real-life situations that students will face upon graduation.

## CEFPI Meeting at San Jacinto Elementary

In November, cre8 Architects and Deer Park ISD hosted the CEFPI meeting at San Jacinto Elementary School. The lunch program included a presentation about the planning process for a 21st Century Instructional Model, and lunch was prepared and served by Deer Park High School South's Culinary Arts students. A tour of the school concluded the program. San Jacinto Elementary is LEED Silver Certified, and was honored with the Caudill Award 2013 and CEFPI Southern Region's First Place Award 2014.
