

# GULF COAST CHAPTER QUARTERLY NEWSLETTER

JUNE 2016

## A4LE - Educational Programs Committee Update

The A4LE Educational Programs Committee is up and running in the Gulf Coast Region! The mission of this committee is to form meaningful and lasting partnerships with the education community, thereby promoting collaboration between students, educators, and professionals around the purpose of improving the learning environments, and encouraging student membership in the organization. Our committee members are kicking things off by identifying potential partners, such as colleges of education, colleges of architecture and other professionals, who would be interested in collaborating with A4LE on research projects, or other activities that would further the dialogue around improved learning environments.

## Gulf Coast Chapter Educational Programs/Outreach Committee

### Mission:

The Mission of the Educational Programs Committee is to form meaningful and lasting partnerships with the education community, thereby promoting collaboration between students, educators, and professionals around the purpose of improving the learning environments, and encouraging student membership in the organization.

### Action Items:

- Identify potential partners (Colleges of Education, Colleges of Architecture, Professionals etc.)
- Identify potential research projects that would support a collaboration between A4LE and the identified partners
