

# The Council of Educational Facility Planners International (CEFPI)

Presents

*“Incorporating Green Features into the Design of New and Existing Schools”*

## October 22, 2013

11:30 am—1:30 pm

**Downtown Development District**

247 Florida St. | Baton Rouge, LA 70801

John will address incorporating green features into the design of existing and new school buildings, and how these features can benefit the 25% of the population that goes to school every day. He will also address the efforts of the US Green Building Council to improve the performance of school buildings and students, and how you can get involved.

### Featured Speaker:

John Anderson is a resource for sustainability and green design issues under the Leadership in Energy and Environmental Design (LEED) Green Building Rating System. John was the first LEED-Accredited Professional in the state of Louisiana. As the project professional, he has successfully achieved LEED-Silver certification on one project, with numerous other projects currently registered.

Mr. Anderson earned a Master of Architecture degree from the University of Texas, and a Bachelor of Architecture degree from the University of Southern California. He has been a licensed architect since 1991, and is licensed to practice in Texas, Louisiana, and Mississippi.
