Program:

Managing The Construction Schedule

A case study in construction process monitoring at UTD. Mr. Lund with UTD has developed a comprehensive charting technique that is certain to highlight issues and conflicts that potentially threaten project success. This program will engage the perspective of the Owner, Architect and the Contractor as they demonstrate the positive influences of this reporting system throughout their project.

Presenters:

Tom Lund, AIA, Sr. OFPC Sr. Project Manager – UTD
Dan Arrowood, AIA, Sr. V.P. – HKS Education Group
Steve Camp, Principal – Hill & Wilkinson Construction

Learning Objectives

1. Learn about key data to monitor during the construction process.
2. Learn how this tool enhances project communication and collaboration.
3. Learn how job site safety can be improved and inspired.
4. Learn how this process can be required pre-emptively during the process.
