

A4LE NORTH TEXAS CHAPTER

March 2017 Chapter Meeting

PROGRAM DESCRIPTION:

How do you make a school better and let the client dream while still maintaining the client's budget? Through a multi-step collaborative process, not using a "one fits all approach," the new Arlington ISD Junior High School does just this!

The opportunity for an Architect to sit in the audience with the client and have input in the process at the planning stages reaps benefits when designing the project. Learn how to plan a project involving everyone from the Superintendent, Teachers, Facilities Management, Construction Manager to the Architect.
