DCSD Mission Statement

The mission of the Douglas County School District (DCSD) is to provide an educational foundation that allows each student to reach his or her individual potential.

Board of Education Goals - Academic Excellence

- Alignment of Board Goals
 - Academic Excellence
- Matriculation and Persistency Data (Readiness)
- Board of Education Partnership
- Commitment to Our Students, Families, Community, and Industry

Where Did Our Journey Begin and What Did We Need to Consider?

Essential Questions

How do we ensure all students have a personalized postsecondary pathway and ensure we develop their agency to explore their passions and achieve their goals with a competitive advantage?

How do we ensure our schools district systematically invests in our students, families, community, industry, and economic development of our county?

- Community School District
- Legislation Changes
- Purpose, Function, Ambition of the Facility
- Matriculation and Persistency Data
- Talent Pipeline
- Complementary Sustainable and Stackable Differentiated Pathways
- Colorado Workforce Needs
- Define Student Success?
- How do we Change the Narrative of what Alternative Education is?

Why Does it Matter?

Priority Learning Outcomes

1. Promote student engagement and well-being.
2. Prepare ALL students for Post-graduation success.
3. Improve academic achievement and growth of ALL students.
4. ALL students have equitable access to a high quality education.

Anatomy of a CTE Program:

Career and Technical Education is a designation awarded to programs approved by the *State of Colorado*.

State Approved CTE Program

Credentialed Teacher with Industry Experience

Program of study:

a clear progression of learning that leads to high skill, high wage, and in demand careers aligned with postsecondary pathways.

Advisory Committee:

Committee that meets each semester to advise and guide a CTE program. 51% Industry members with special populations representatives to ensure a rigorous, responsive, and relevant program.

Career and Tech Student Organization [CTSO]:

Supports leadership development and application of skills in real world scenarios for students. Each CTE program area has a designated CTSO.

Work-based Learning:

Experiences that move from Learning about Work to Learning through Work, allowing students to explore a career pathway first-hand and make informed decisions about the future.

Alternative High School + CTE Project: A Story of Change and Opportunity

The Vision

We see the Douglas County CTE Innovation Center being a flexible balance of **student and community spaces** where industry partners are collaboratively engaging students to create a workplace talent pipeline and college readiness programs in an environment that has connection to the outdoors, and is **used at all hours of the day**.

In this facility, **learning is visible**, technology supports the **learner experience**, and the building, with renewable resources, is a learning tool. We see **active engagement, equity, and passion** in this facility.

Course Guide

Vision/Mission:

VALE seeks to uncover a child's **gifts** and **talents**, **nurture** them, and help them harness both their **lived** and **learned experiences** in order to **prepare** them for a **post-secondary pathway** of their choice.

VALE....

“Very simply put, innovation is about staying relevant. We are in a time of unprecedented change. As a result, what may have helped an organization be successful in the past could potentially be the cause of their failure in the future. Companies need to adapt and evolve to meet the ever changing needs of their constituents.” (Stephen Shapiro)

When Creating VALE: Consider

- **How Do We Change the Narrative About Alternative Education.....**
- **How Do We Redefine What Alternative**
- **Education Looks Like and Feels Like?**

"Schools are the economic engine of the community."

- Superintendent Erin Kane

VALE graduates will be... **Patented, Published Practitioners**
