**GREEN SCHOOLS CALL-TO-ACTION
 ROUNDTABLE DISCUSSION**

OFFICESCAPES MARKET STREET STUDIO

1445 MARKET ST. DENVER, CO 80202

This past Green Schools Summit discussed various call-to-actions we can all do to help make our learning environments better for the planet and the people they serve. Let's get together to discuss the top five provocative topics that came out of the Summit. Each attendee will spend 15-20 minutes discussing each topic with a roundtable guide and group of attendees. The five topics are:

- **Electrifying schools**
- **Cafeteria food sourcing**
- **EV & Battery storage**
- **Owner conversations: flipping the script to what they care about**
- **Zero waste**

Appetizers and beverages will be available!

Members: Free

Non-members: \$15

CHINOOK TRAIL MIDDLE SCHOOL

ACADEMY SCHOOL DISTRICT #20

9750 GRAND LAWN CIRCLE COLORADO SPRINGS, CO 80924

The school is the first new stand-alone middle school for Academy District 20 in over 20 years and was the largest project in the 2016 bond. Through a community design workshop process, it was determined that the building should focus on project based learning, student wellness and connections to nature. The building was designed utilizing WELL Building criteria with an emphasis on healthy and positive spaces. Utilizing the middle school team concept, classroom clusters are built around project-based learning labs that offer opportunities for teaming, collaboration and small group work.

Join us for networking, presentation about incorporating Project Based Learning and Design Thinking into school curriculum.

SCHEDULE

3:30 - 4:00 PM Arrive and network

4:00 - 5:00 PM Presentation by Tom Andrews the principal at Chinook Trails focused on his research into Project Based Learning, Design Thinking and how he has interwoven those into curriculum for the school. Also available to be a part of that conversation is Henry Reitwiesner from Academy 20, Brian Calhoun from RTA and Jack Mousseau from MOA.

5:00 - 6:30 PM Tour of the facility with Tom, Academy 20, MOA, RTA and Bryan Construction.

**GREEN SCHOOLS SUMMIT
 ARVADA CENTER FOR THE ARTS AND HUMANITIES**

The 2019 Green Schools Summit, hosted by USGBC Colorado, was a great success. The sold-out Resiliency Workshop brought to light the importance of implementing design that fosters health and safety for teachers and students, as well as how design plays a major role in the cognitive function and overall success of students.

The main summit day brought together nearly 300 industry professionals, school district employees and parents for a full day of education and inspiration about greening our schools.
