What are you grateful for  
this morning?

# What is Wellbeing?

# Health?

Happiness?

Or is it both?

# Health

**Mind, Body, and Spirit.**

# Happiness

**Self-actualization (transcendence) & Resilience**

Wellbeing = Health + Happiness

Apart from genetics, what does our state of wellbeing depend upon?

Neighborhood

## Children & Wellbeing

I am in control

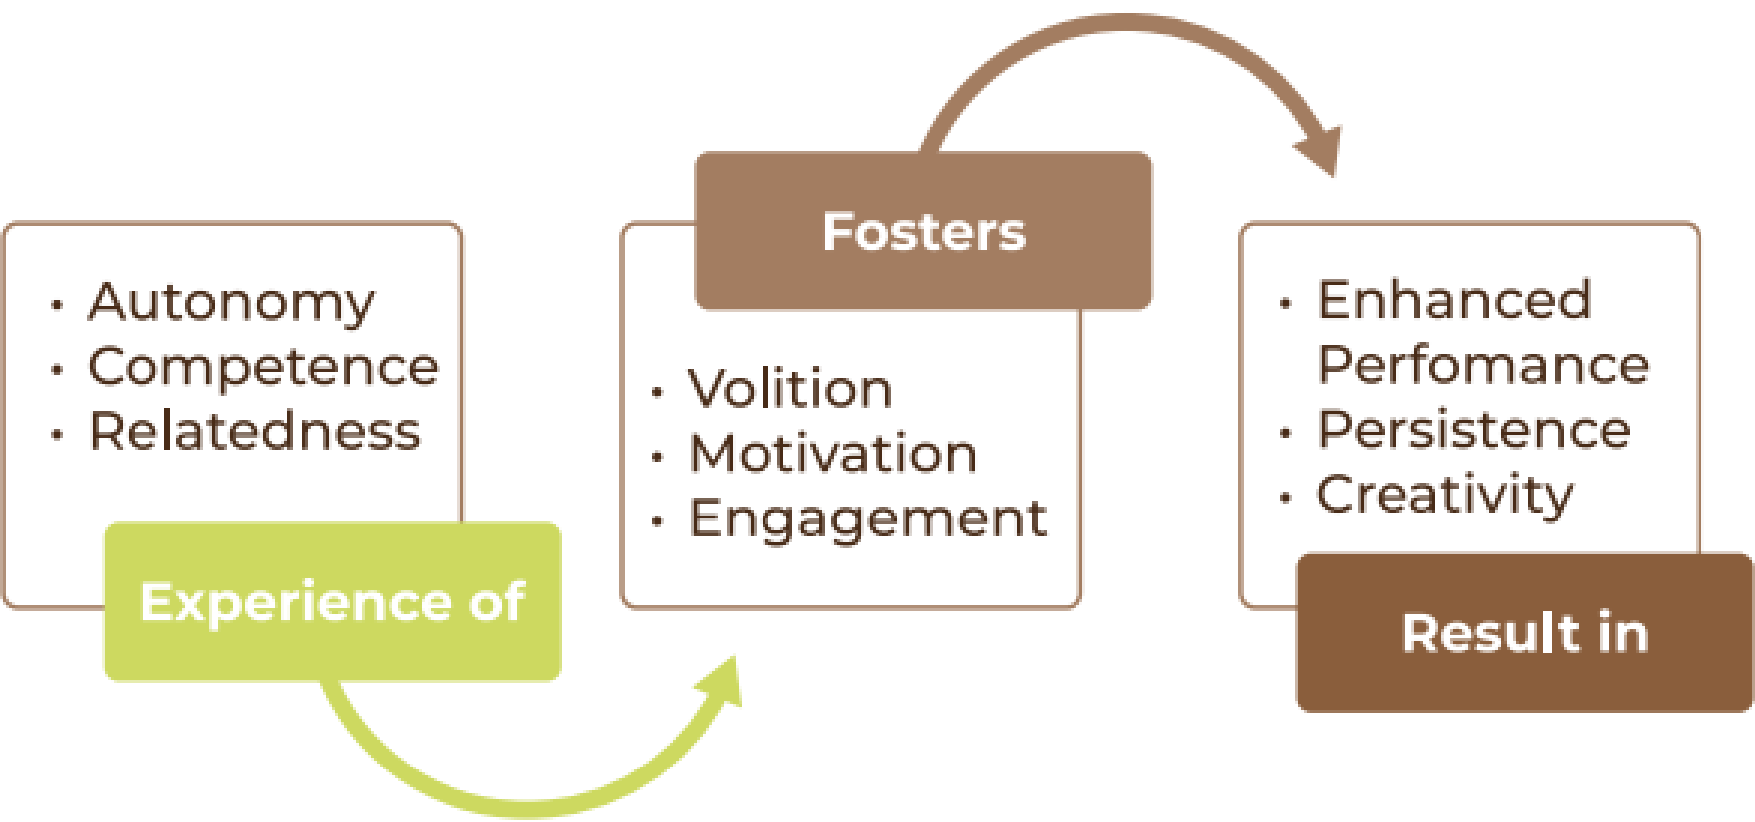

I can

I belong

# Self-Determination Theory (SDT)

Ryan & Deci, 2000

1. AUTONOMY

2. COMPETENCE

3. RELATEDNESS

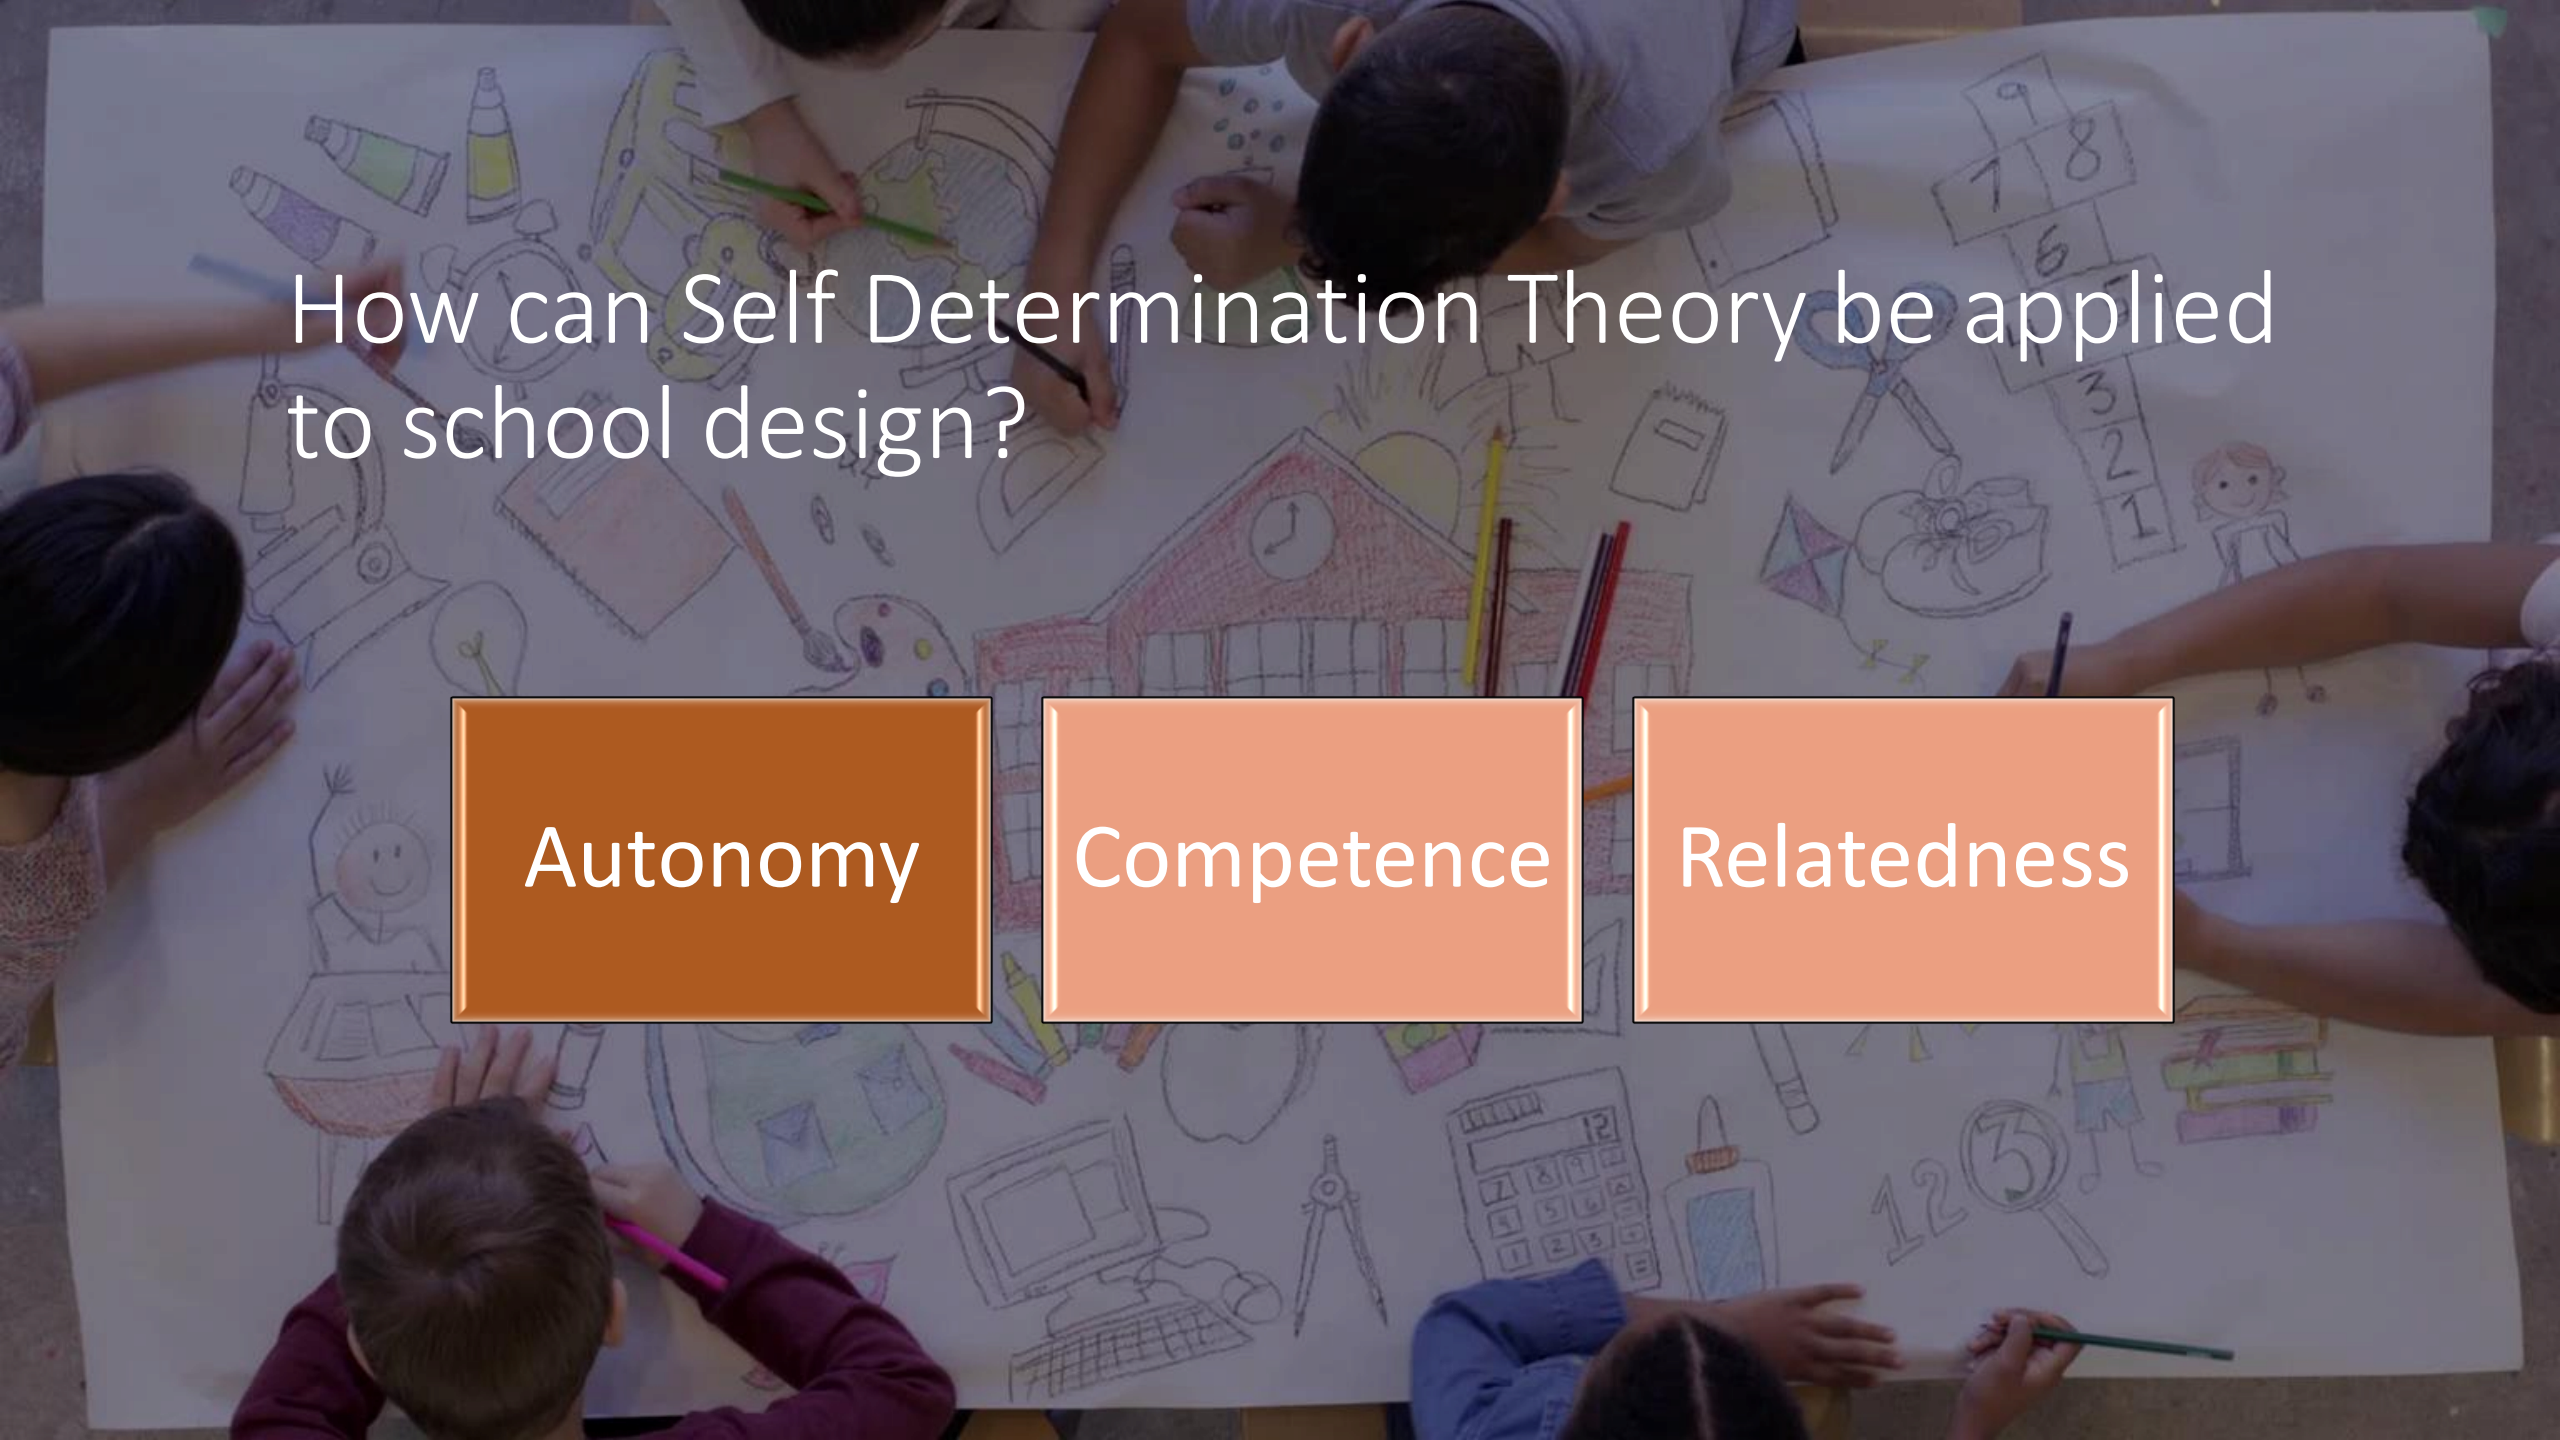

## REFLECTION

---

Think of your favorite learning space from your school days.

What made it special or effective for you?

A top-down view of several children sitting around a large sheet of paper on the floor, engaged in a drawing activity. The paper is covered with various hand-drawn sketches, including a school building with a clock tower, a calculator, a person, a lightbulb, a microscope, and various geometric shapes and numbers. The children are using colored pencils and markers to create their drawings. The overall scene is one of collaborative learning and creative expression.

How can Self Determination Theory be applied to school design?

Autonomy

Competence

Relatedness

# AUTONOMY

✗ Doesn't mean independence or self-sufficiency.

✓ Need to perceive oneself as the source of one's own behavior.

✓ The experience of choice

In educational settings, autonomy is closely associated with:

- **Motivation**
- **Learning outcomes**
- **Well-being**

With your wings discover things

Environmental Orderliness & Legibility

## Personal Spaces & Accessibility

Respect for scale & development needs

# EMERALD ELEMENTARY SCHOOL

Flexible Learning Spaces

# COMPETENCE

- ✓ The need to master optimal challenges.
- ✓ The need to feel confident and capable in one's abilities.

In the context of education,  
the drive for competence  
manifests as:

✓ **Engagement**

✓ **Persistence**

✓ **Quality of learning**

## Restorative Spaces

## Nature Integration

## Spaces for Collaboration

## Environments for Interaction

## RELATEDNESS

- ✓ The need to be connected to, and experience caring for others.
- ✓ It's about feeling understood, valued
- ✓ Having a sense of belonging to a community.

In educational terms, relatedness has implications for:

- **Classroom dynamics**
- **Engagement**
- **Mental health**

## Small Learning Communities

## Sensory Design

## Social Spaces

Nature Connectedness

# The Experience of Choice.....

“freedom to choose what, where, how, and with whom”

A pile of colorful LEGO bricks in blue, yellow, green, and red, scattered on a light surface. The bricks are of various sizes and orientations, creating a textured, multi-colored background.

# Choice Architecture in Educational Environments

**NUDGING** towards better health, community spirit & environmental stewardship!

Decisions are influenced by how choices are presented

Choice Architecture  
acknowledges the innate  
human **need for control.**

**1. Mental And Emotional Well-Being**

**2. Social Growth And Interaction**

**3. Physical Health Facilitation**

**4. Environment And Sustainability**

Presenting choices for :

## Eco-awareness Zones

Resource Management

---

"Learn how to see. Realize that everything connects to everything else."

**Leonardo da Vinci**

A young tree with a single green leaf and a complex root system growing in dark soil. The tree is positioned on the right side of the frame, with its roots spreading out across the dark, rich soil. The background is a clear, light blue sky. The overall image conveys a sense of growth and foundation.

# Basic Psychological Needs & Sustainable Development

# Autonomy

Current curricula and media, focused on worsening planetary health, create a sense of helplessness, undermining children's belief in their power to effect change.

***“Things are not in control”***

Insecurity

Impact

# Competence

The emphasis on global crises without providing actionable and achievable solutions leads to a diminished sense of competence in addressing environmental issues.

***“I am not capable”***

Disempowerment

Impact

# Relatedness

Disconnect from community and nature. Reduced empathy and concern for environmental preservation.

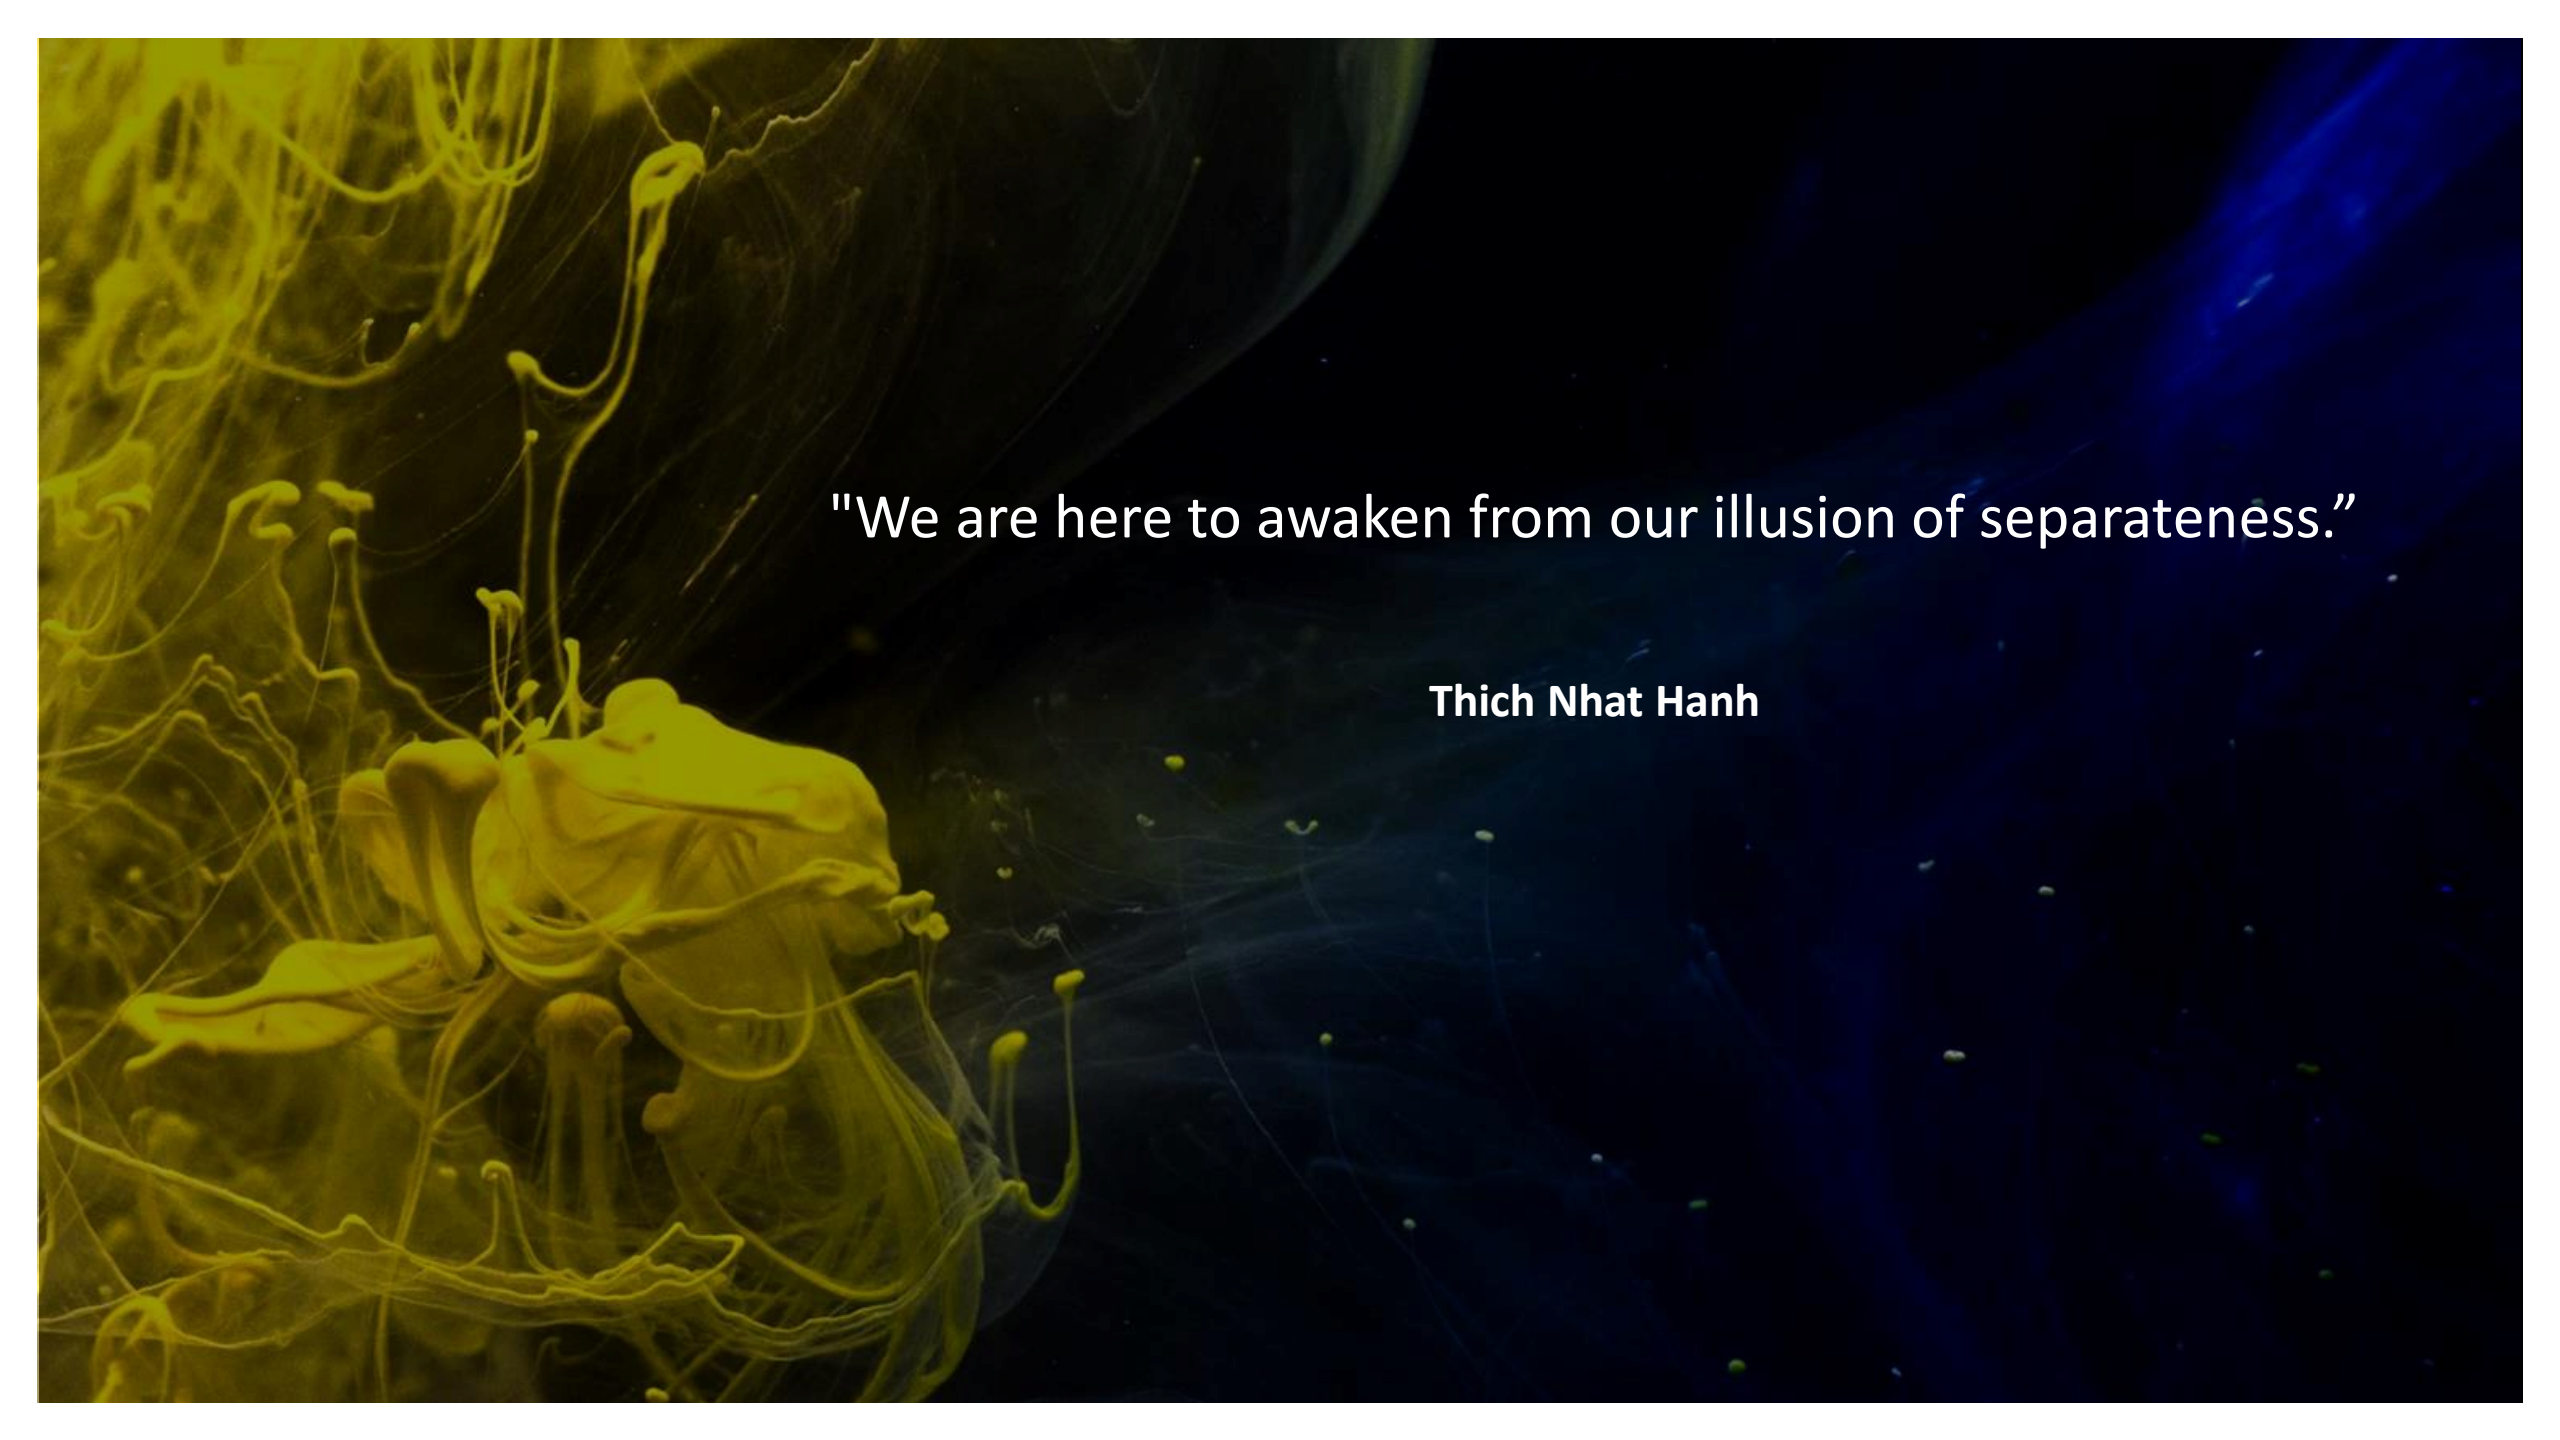

***“I don’t belong”***

**Alienation**

**Impact**

A photograph of a glowing yellow jellyfish against a dark blue background. The jellyfish is the central focus, with its translucent, glowing body and long, thin tentacles. The background is a deep, dark blue, possibly representing the ocean at night or a dark underwater environment. The lighting is dramatic, highlighting the intricate details of the jellyfish's structure.

"We are here to awaken from our illusion of separateness."

**Thich Nhat Hanh**

Questions??

"Our task is to educate their whole being, so they can face this future. By the way – we may not see this future, but they will. And our job is to help them make something of it."

- - **Sir Ken Robinson** - -
